

**Imagine waking up to a fine morning  
When the sun is just about to rise  
You look out the window  
A scene of quiet calm greets you  
You want to stare at beauty forever**

Who hasn't come upon something good and wanted to hold on to it?

Now, photographer Naomi R. Heckler captures the serenity of a sunset, the tranquility of autumn and the wrath of a noontime sun in the pages of **Come To My Window**.

Shiver in the cruel cold of a cornfield in winter, hear the ripples of a passing river and feel the enchantment of a magical bridge... **Come To My Window** is the perfect present for friends and family. Keep one on your coffee table too!
